Career Objective

Motivated and passionate Computer Science student with strong skills in full-stack web development using HTML, CSS, JavaScript, React, Java, and Spring Boot. Interested in building scalable web applications and continuously learning modern technologies. Seeking internship and software development opportunities to apply technical skills and gain industry experience.

Education

College : Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

Bachelor of Technology

Branch : Electronics & Computer Science Engineering(ECSc)

CGPA: 8.04

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React
 - **Backend:** Java, Spring Boot
 - **Database:** MySQL
 - **Machine Learning:** Python, NumPy, Pandas, Matplotlib, Scikit-learn, Supervised Learning, Regression, Classification
 - **Tools & Technologies:** Git, GitHub, REST APIs
 - **Programming Concepts:** OOPs, Collection Framework, Basic Data Structures
-

Projects

Typing Speed Test Web Application

- Developed an interactive typing speed test application.
- Implemented WPM and accuracy calculation features.
- Added animated UI effects and performance visualization.
- Used JavaScript, HTML, and CSS for frontend development.

Spring Boot Authentication System

- Built a login and signup system using Spring Boot and Spring Security.
- Integrated database support using JPA and MySQL.

- Added OAuth login support with Google and GitHub.
- Implemented Forgot Password functionality using email verification.

Calculator Web Application

- Created a responsive calculator using HTML, CSS, and JavaScript.
 - Implemented expression evaluation and interactive UI features.
-

Languages

- English
 - Hindi
 - Odia
-

Additional Information

- Interested in software engineering and full-stack development and AI
- Passionate about building real-world projects and learning new technologies
